BEHAVIOURAL PROCESSES

Contents of Volume 34

Editorial

MALONEWS— gnawing at the roots of academic psychology 1

Research Papers

H.O. Box, B. Röhrhuber and P. Smith (UK, FRG)
Female tamarins (Saguinus–Callitrichidae) feed more successfully than males in unfamiliar foraging tasks 3

A.D. Mills, R.B. Jones and J.M. Faure (France, UK)
Species specificity of social reinstatement in Japanese quail *Coturnix japonica* genetically selected for high or low levels of social reinstatement behaviour 13

I. Turro-Vincent, F. Launay, A.D. Mills, M. Picard and J.M. Faure (France)
Experiential and genetic influences on learnt food aversions in Japanese quail selected for high or low levels of fearfulness 23

L. Lefebvre (Canada)
The opening of milk bottles by birds: Evidence for accelerating learning rates, but against the wave-of-advance model of cultural transmission 43

C.S. Malhi and K. Kaur (India)
Food preference behaviour of the five-striped squirrel, *Funambulus pennanti* Wroughton 55

Y. Le Pendu, L. Briedermann, J.F. Gerard and M.L. Maublanc (France, Germany)
Inter-individual associations and social structure of a mouflon population (*Ovis orientalis* musimon) 67

M.F. Bouissou and M. Vandenheede (France)
Fear reactions of domestic sheep confronted with either a human or a human-like model 81

N.K. Sandnabba (Finland)
Predatory behaviour in females of two strains of mice selectively bred for isolation-induced intermale aggression 93

Book Reviews 101

Research Papers

T. Londei and V.G. Leone (Italy)
Mouse pups discriminate food gnawed by conspecifics 105

D.M. Compton (USA)
An investigation of the role of the hippocampus and the amygdala in the encoding of a serial pattern: Effects of a long inter-element interval 113

C. Janus, J.S. Koperwas, M. Janus and J. Roder (Canada)
Rearing environment and radial maze exploration in mice 129

J.N. Weatherly and F.K. McSweeney (USA)
Within-session response patterns when rats press levers for water: Effects of component stimuli and experimental environment 141

S.A. Ferguson and M.G. Paule (USA)
Lack of effect of prefeeding on food-reinforced temporal response differentiation and progressive ratio responding 153

T.G. Langecker, B. Neumann, C. Hausberg and J. Parzefall (Germany)
Evolution of the optical releasers for aggressive behavior in cave-dwelling *Astyanax fasciatus* (Teleostei, Characidae) 161

D.W. Van Liere (Netherlands)
Responsiveness to a novel preening stimulus long after partial beak amputation (beak trimming) in laying hens 169

E. Le Bourg, A. Grimal, N. Fresquet and F.A. Lints (France, Belgium)
Spontaneous locomotor activity of *Drosophila melanogaster* flies at various gravity levels (0 g, 1 g, 1.8 g) during parabolic flights 175

O. Delumeau and M.C. Meunier-Salaün (France)
Effect of early trough familiarity on the creep feeding behaviour in suckling piglets and after weaning 185

Research Papers

C. Blois-Heulin and C. Belzung (France)
Effects of previous familiarization on novelty reactions in mice (*Mus musculus*) 197

Z. Katsir (Israel)
The meaning of the 'variations' in the babbler 'shout': A musical-ethological approach 213

T.A. Robinson, T.M. Foster, W. Temple and A. Poling (New Zealand, USA)
Performance of domestic hens under progressive-ratio schedules of food delivery 233

R. Cammaerts (Belgium)
Regurgitation behaviour of the *Lasius flavus* worker (Formicidae) towards the myrmecophilous beetle *Claviger testaceus* (Pselaphidae) and other recipients 241

P.J. Kraemer, R.W. Brown and C.K. Randall (USA)
Signal intensity and duration estimation in rats 265

M.V. Pletnicov, Z.I. Storozheva and V.V. Sherstnev (Russia)
Developmental analysis of habituation of the acoustic startle response in the preweanling and adult rats 269

B.G. Galef Jr. and E.E. Whiskin (Canada)
Are socially acquired behaviours irreversible? 279

C.B. Cannon and F.K. McSweeney (USA)
Within-session changes in responding when rate and duration of reinforcement vary 285

Short Report

S. Cloutier, J.P. Beaugrand and P.C. Laguë (Canada)
The effect of prior victory or defeat in the same site as that of subsequent encounter on the determination of dyadic dominance in the domestic hen 293
